# Software

# Engineering

Bringing it All Together

# Agile Methods in Historical Context

# Agile Methods in Historical Context

1990's

From a desire to reduce overhead associated with plan-based methods ("waterfall") \*\*readings

Agile founders were concerned with values and principles rather than rigid, codified methodologies \*\*readings

\*\* Also Historical and comparative readings

# Agile Methods

Typical characteristics of agile methodologies:

- Short, iterative development cycles

- Working product each iteration

- Self-organizing teams

- Refactoring

- Test-driven development

- Close customer involvement

# Agile Methods: Rapid Application Development (RAD)

# Agile Methods: eXtreme Programming (XP)

# Agile Methods: Scrum

# Agile Methods: Feature-Driven Development

# Start with a List

Design Document

1. “To Do” list
2. Decomposition, Design and Construction

# Agile Goals

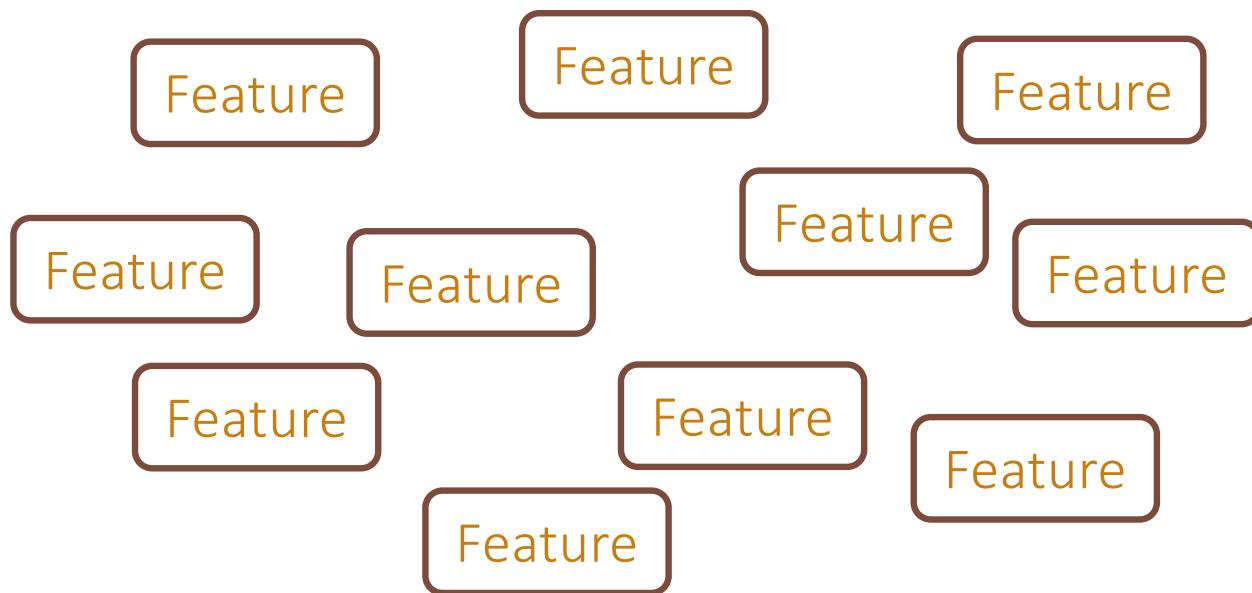

- ↗ Bacon
- ↗ Throughput
- ↗ Transparency
- ↗ Accurate Planning
- ↗ Sustainable

Improving Productivity ==

Developer Happiness

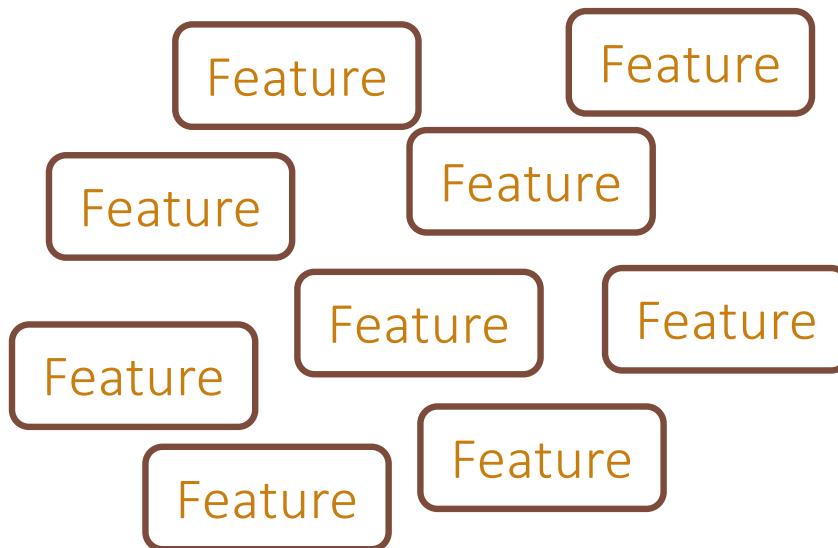

Problem:

## Lack of Focus

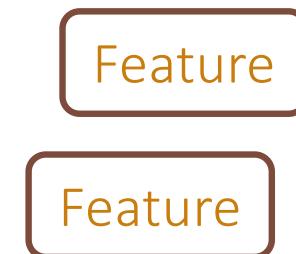

## Solution: Focused Iterations

Backlog

Now

Solution:

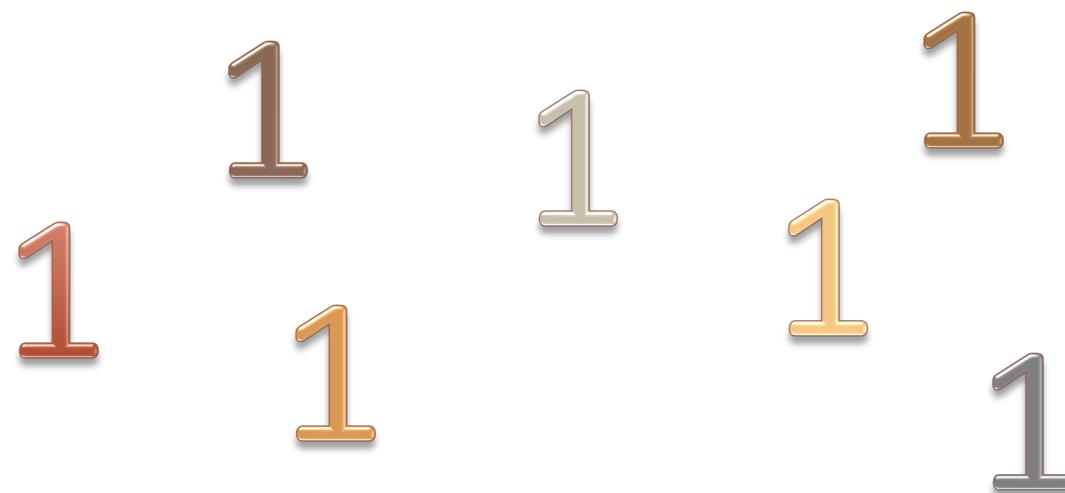

## SMART Goals

- Specific
- Measurable
- Achievable
- Realistic
- Timely

# Agile Task Board

# Solution: Developer Happiness Hours

## Solution:

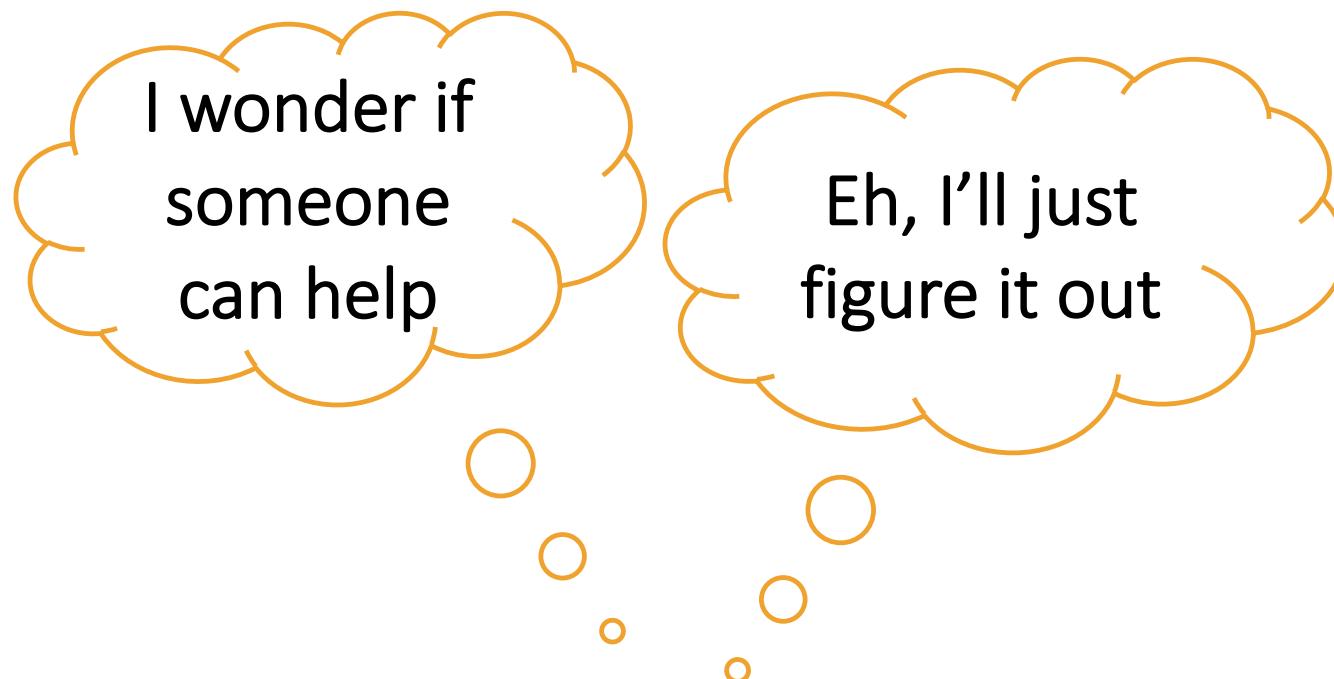

# Dead Week

## You Might Try ...

- Block Out Times In Your Calendar
  - Multi-Hour “Meetings” With Colleagues
  - Suggest to Management
    - They Have Non-Meeting Work Too!

## Problem: Sharing Knowledge Locally

# Workspaces

Co-location

Open Sight Lines

More People Per Room

Less Wall Space for Whiteboards, Task Boards ...

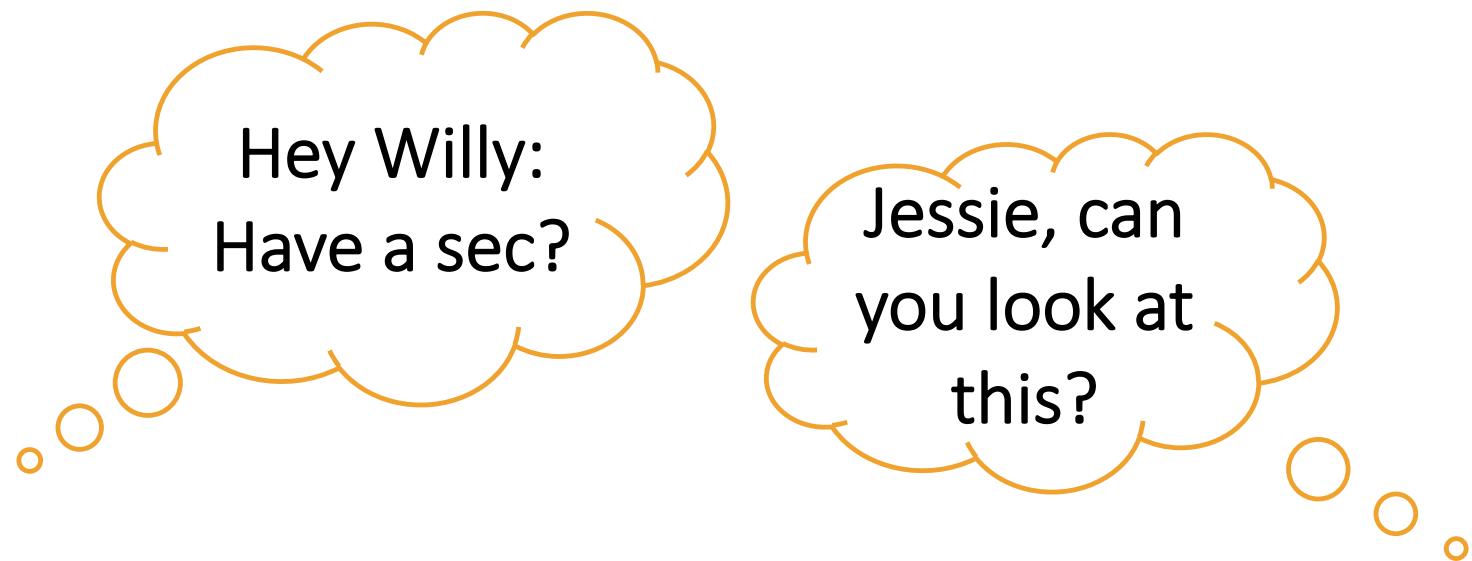

Easy Reconfiguration

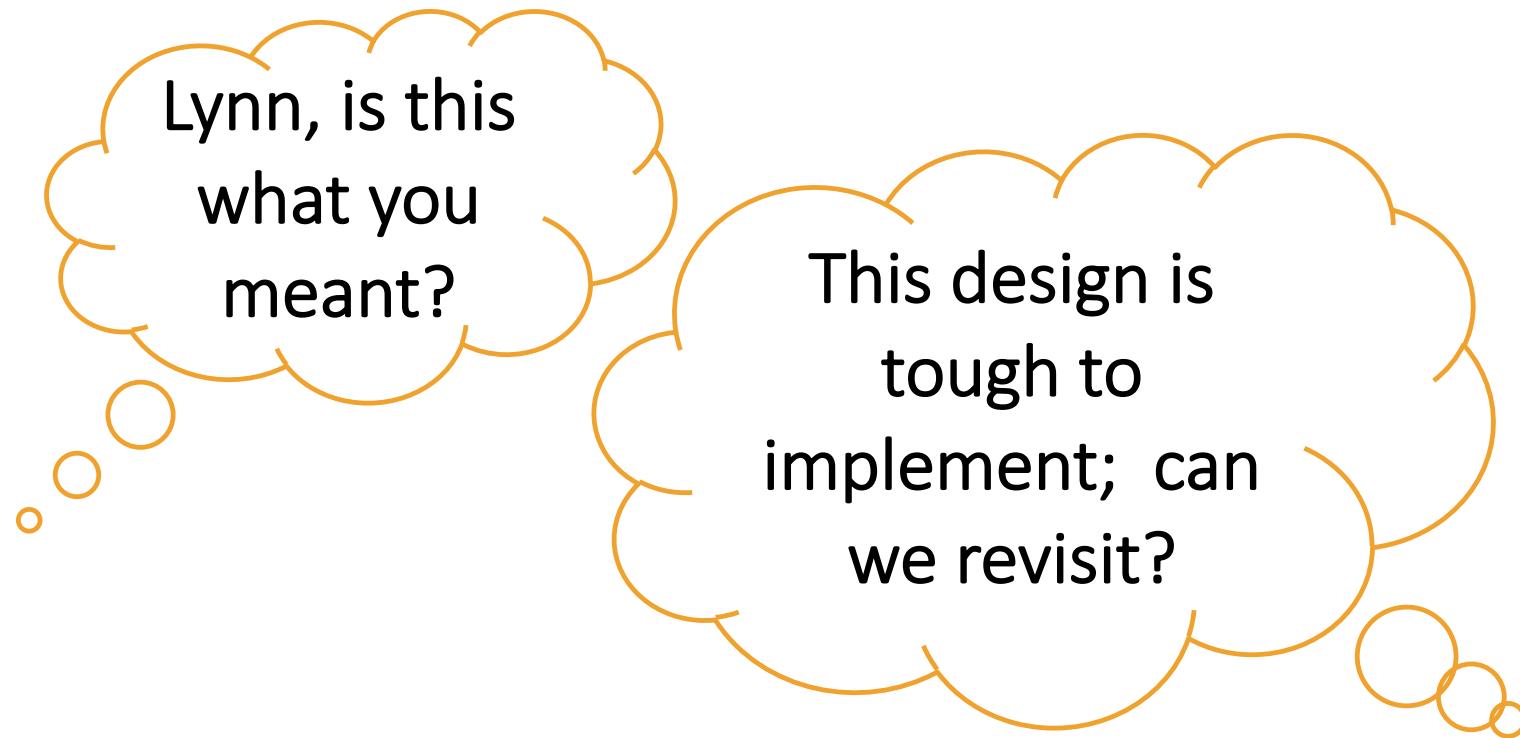

Solution:

## Open Sight Lines

Solution:

## Non-Developers, too

## You Might Try ...

Demolish Cube Walls

Temporary Co-Location

Large shared office

Conference Room

Study Room

Coffee Shop

Lunch with Coworkers, Product Owners ...

# Flex Room

Pai

## Problem: Lack of Visible Progress

© Ron Leishman \* [www.ClipartOf.com/1060054](http://www.ClipartOf.com/1060054)

Solution:

## Short Iterations

1 week or

Short is:

2 weeks or

1 month or ...

## Solution: Good Communication

- Regular Meetings
- Email List
- Wikis
- Tracking System (e.g. JIRA)

# Solution: Planned Work is Public

## Hydra Hypatia

[Summary](#) [Issues](#) [Road Map](#) [Agile](#) [Change Log](#) [Popular Issues](#) [Subversion Commits](#) [Git Commits](#) [Versions](#) [Labels](#) [Builds](#)

### Summary

**Description**  
Hydra Platform for Access to Information in Archives: A Hydra head that enables processing, arrangement, description and access for born digital archival materials. Built in association with the Mellon AIMS Grant (with UVa, Hull, Stanford & Yale as partners).

**Lead:** Michael Olson  
**Key:** HYPAT

#### Issues: Due

Issue	Due Date
HYPAT-31 Functional requirements for discovery and delivery of item or document level objects	31/Mar/11
HYPAT-81 Create a Stanford Special Collections APO object fixture	05/Jul/11
HYPAT-139 ruby FTK library creates Fedora objects	24/Aug/11

#### Issues: 30 Day Summary

Issues: 5 created and 0 resolved

#### Issues: Updated recently

Issue	Last Update
HYPAT-167 Create links throwing error	13/Oct/11
HYPAT-166	12/Oct/11

Versions: Due

- future
- hot plate
- weekly sprint for September 27

Release Date: 27/Sep/11

### Activity Stream

October 13 Jessie Keck created HYPAT-167 - Create links throwing error When clicking on any of the add asset links you get a "Undefined namespace prefix: /moda:mods" error.

October 12 Jessie Keck created HYPAT-166 - File Assets need to loop through all file assets and not be hard coded to one. The show partials for file assets don't appear to loop through all file asset objects and are just hard coded to 1 or 2 assets. This means added assets in the edit view won't be displayed.

October 11 Michael Olson updated 4 fields of HYPAT-165 - Update Hull Collection FoxML

- Changed the Due Date to "12/Oct/11"
- Updated the Description
- Changed the Assignee to "Peter Chan"
- Changed the Summary to "Update Hull Collection FoxML"

October 11 Michael Olson created HYPAT-165 - Update Hull Collection Fox

October 03 Naomi Dushay created HYPAT-164 - update edit forms to include all relevant fields Naomi is almost finished with the revised views to show all fields in the objects. The edit forms now need to use all these fields. (collection, set, disk image, file objects)

October 03 Naomi Dushay created HYPAT-163 - better error message for URL to show fedora object that doesn't exist

# You May Need (JIRA) Foo

Versioning  
Components  
Workflow

Problem:

## Scrum Unrealistic

We have too many simultaneous projects

I can't dedicate 5 developers to a single project, even short term

## Solution: Take Pieces of Agile

- Short Iterations of Narrow Focus
- Communication Across Roles
- Co-Location
- Pair Programming
- Transparency
- ...

# Experiment!

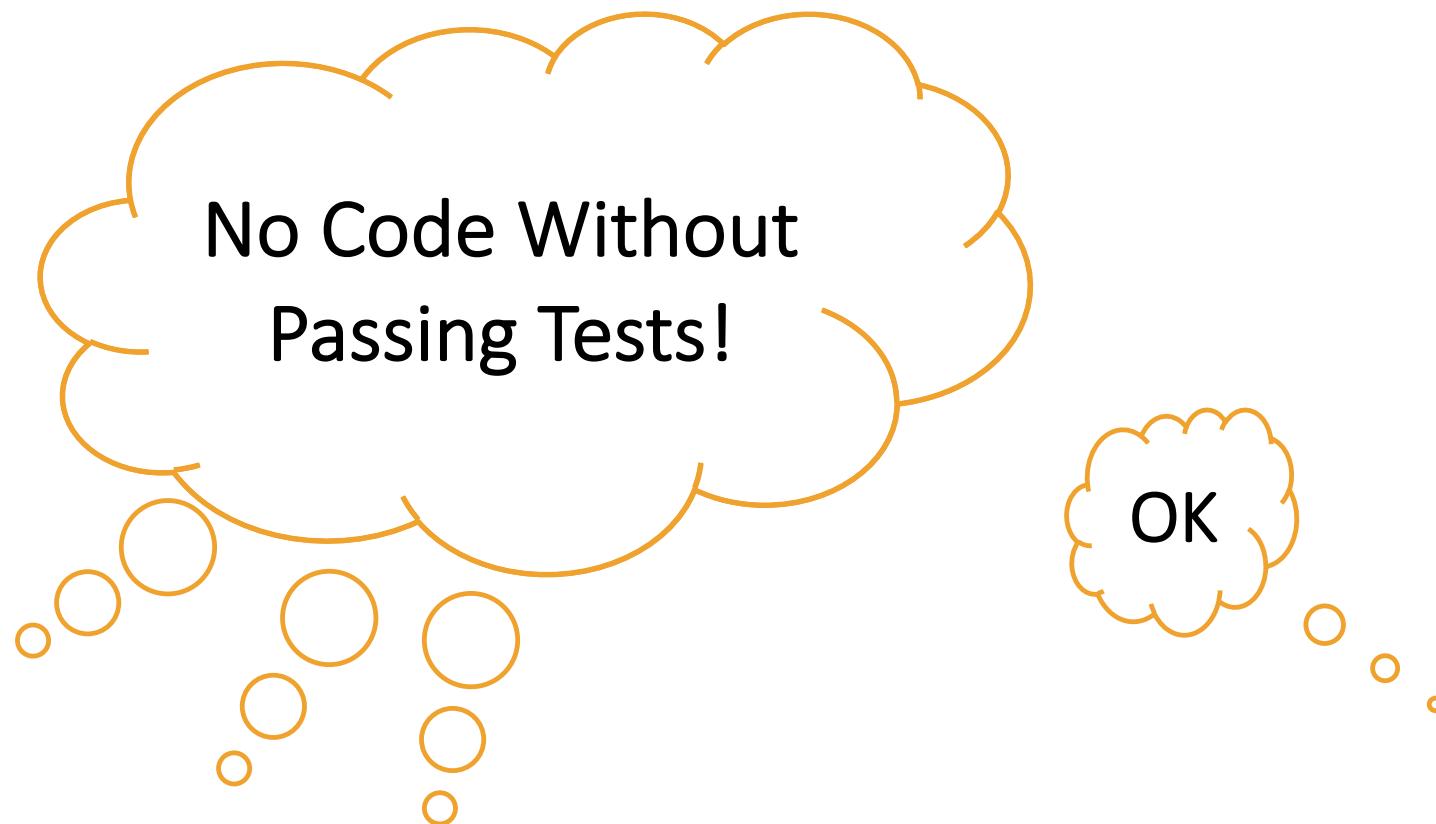

- Scrum ...
  - Short, Focused Iteration
  - (2?) – 7 People
  - Temporary Co-Location
  - Task Board
  - Pair Programming
  - Daily Stand Ups

Problem:

## No Local TDD

Solution: Requirement of OSS

# Open Source Software

True Group Ownership

Good Communication

Rotating Roles

*Bigger (release manager for pieces)*

*Smaller (meeting moderator, notetaker)*

# Problem: Distributed Developers

(Eddie Shin)

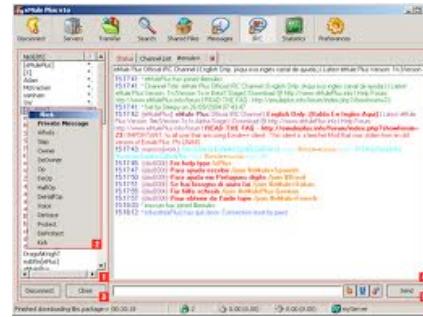

## Solution: Realtime Contact

Weekly Check-Ins

As Needed

Face to Face!

Problem:

## Developer Distrust

Their stuff is  
always buggy

I hate his  
code

I could do  
this faster  
myself ...

... if I  
had time

## Solution: Good Development Practices

- ↗ Automated tests
- ↗ Continuous Integration
  - ↗ Automatic Notifications
- ↗ Code Coverage Data
- ↗ Transparency
- ↗ Documentation Coverage Data

Solution: No Code Without Tests

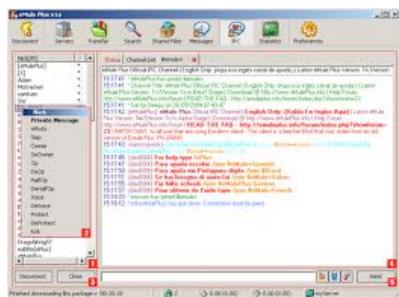

# Solution: Test Coverage Transparency

```
125      @response, @document = get_solr_response_for_doc_id(pid)
126      if reader?
127          @downloadable = true
128          break
129      end
130  end
131
132  if @downloadable
133      if @file_asset.datastreams_in_memory.include?("DS1")
134          send_datastream @file_asset.datastreams_in_memory["DS1"]
135      end
136  else
137      flash[:notice]= "You do not have sufficient access privileges to download this document, which has been marked private."
138      redirect_to(:action => 'index', :q => nil , :f => nil)
139  end
140 end
141 end
142
143 end
```

Solution: Automated Test Runs

# Solution: Test Result Transparency
